EXPERIENCE

Senior Backend Developer | Meta

JAN 2017 - 2019, MOUNTAIN VIEW, CA

- Contributed to the development and maintenance of several backend services, significantly improving performance and scalability.
- Implemented robust APIs and worked closely with frontend developers to ensure seamless integration.

Software Engineer | Google

JAN 2017 - 2019, MOUNTAIN VIEW, CA

- Designed and implemented highly scalable, robust, and efficient server-side applications for millions of users worldwide.
- Worked collaboratively with cross-functional teams to improve overall functionality and user experience.

EDUCATION

Stanford University | Bachelors in Computer Science

JAN 2014 - 2018, STANFORD, CA

- Graduated with honors, consistently making the Dean's list. Awarded the Stanford University Computer Science Excellence Scholarship for outstanding academic performance.

PROJECTS

Lead Developer | AI-Powered Recommendation System

APR 2023, STANFORD HACKATHON

- Developed an AI-powered recommendation system that utilizes machine learning algorithms to provide personalized content suggestions.
- The project was awarded 'Best AI Application' in the hackathon.

SKILLS

Java, Python, Node.js, SQL, NoSQL, AWS, Docker, Kubernetes, RESTful APIs, Microservices

PROFILE

As a passionate and dedicated Backend Developer, I have a proven track record in designing, implementing, and maintaining high-performing, scalable server-side applications. With a Bachelor's degree in Computer Science from Stanford University and hands-on experience at global tech giants like Meta and Google, I've honed my skills in a range of programming languages and technologies. I thrive in collaborative environments where I can contribute to creating seamless user experiences. I am constantly driven by the desire to learn and the pursuit of the next big challenge in the ever-evolving field of backend development.
