### EXPERIENCE

#### Software Developer | OpenAI

FEB 2020 - PRESENT, SAN FRANCISCO, CA

- Developed and implemented AI models and software for various applications.
- Worked on the GPT-3 project, contributing to its success in natural language processing.
- Collaborated with a team of developers to maintain and improve the OpenAI API.

#### Software Developer | Amazon

JUL 2016 - JAN 2020, SEATTLE, WA

- Developed and maintained web applications for Amazon's e-commerce platform.
- Worked on both frontend and backend, ensuring seamless user experience and efficient database management.
- Collaborated with cross-functional teams on various projects, including AWS services.

### EDUCATION

#### University of British Columbia | Bachelors in Computer Science

SEP 2012 - JUN 2016, VANCOUVER, BC

- Graduated with distinction, ranking in the top 10% of the class.
- Participated and won in several coding competitions and hackathons.

### PROJECTS

#### Software Developer | AI Chatbot

DEC 2020, OPENAI HACKATHON

- Developed a sophisticated AI chatbot capable of understanding and responding to complex human conversations.
- Worked on both the frontend and backend of the application, using React for frontend and Node.js for backend.

### SKILLS

JavaScript, Python, Node.js, Express.js, React, Redux, MongoDB, SQL, RESTful APIs, Git

### PROFILE

I am a dedicated Full Stack Developer with a passion for building innovative software applications. With a Bachelor's degree in Computer Science from the University of British Columbia and extensive experience at OpenAI and Amazon, I have honed my skills in both frontend and backend development. My ability to quickly learn and adapt to new technologies, combined with my problem-solving skills, make me an asset in any dynamic software development team.
